

Arki⁺

welcome to a world of opportunities...

FUMAC

velkommen til en verden af muligheder...

Med få elementer formgivet i et tidsløst, æstetisk design åbner Arki+ op for en verden af muligheder for individuel og stilfuld indretning af kontoret.

Med ARKI+ er kombinationsmulighederne utallige. Vælg mellem de forskellige finértyper og farver og sammensæt selv din egen reol. Kombiner eksempelvis en reol i ahorn, med antracit hylder og alufarvet bagklædning. Eller mix ahorn og valnød for en moderne og anderledes løsning. Du vælger selv, om du vil have reolen på sokkel, de alufarvede stålben eller hjul. Afslut med detaljerne og vælg mellem Basic greb eller det specialdesignede ARKI+ greb. Ligegyldig hvilken kombination du vælger vil du altid kunne få et ARKI+ bord der matcher dine valg.

God fornøjelse!

welcome to a world of opportunities...

With a limited number of modules you can now create your own world of contemporary furniture. Arki+ offers a world of opportunities with regards to flexibility and functionality when planning your office.

It is a world of opportunities with Arki+. Choose among the five different finishes and combine them individually into a storage unit or a desk. As an example choose the carcass of a storage unit in maple veneer, choose the internal shelves in anthracite lacquer and finish it off with an aluminium coloured back panel or maybe for a more distinctive look combine maple and walnut veneer? All bookcases come with optional plinth, steel legs or castors. That is if you don't want to hang them on the wall? Finish the design off by choosing one of two different handles. No matter the combination of finish you decide on for your storage, you will be able to find a matching desk.

Enjoy your new Arki+!
